Offering Illinois Web Design and Development Services

Click here to learn more about how Illini Tech Services offers Illinois web design and development services .

Have you ever been lost on an automated phone line, been placed on hold for hours, wandered aimlessly around a store trying to find a sales clerk or waited hours for the repair technician who never comes?

If you have then we understand your frustration and are here to make life a little easier. We are not your standard technology firm. Quality service is our number one priority. We have the expertise to help you and have great passion for what we do. We offer both sophisticated skills and small-town service. We are based in Illinois. Web Design is just one of the services we offer.

If you want to build a website, buy a computer, send and receive email, setup your office with

the latest technologies, or just need some help with a problem with all of the above, we are here to help you.

We have web design and website development services for small businesses to large corporations. We can build a simple one page web design to a full blown e-commerce website equipped with a content management system and intranet for the larger businesses. We can increase your search engine rankings with our search engine marketing strategies and services, or we can give you instant traffic to your site through our PPC, pay-per-click campaign services. We want to make your website work for you and your business.

Our computer sales and services department is here to help you and your business with computer purchases, problems, or special office needs. We want to give you the appropriate attention and best advice when buying a laptop or desktop computer. We are a value added reseller of Dell desktop and laptop computers. If you need assistance setting your computer up in your office, running wires and cables to network your computers, problems with viruses or spam issues, or need some special attention to a specific computer related issue, call us or contact us and we will take care of everything.

Do you need email? Our email hosting services and plans are built for one person to large businesses. We have many email options for you to choose. We use a microsoft certified mail service that is hosted on a secure exchange mail server. Exchange mail offers many advantages over using a standard email platform. Read more about the advantages of exchange mail on our email solutions page. We also offer a standard POP3 email service which comes with no email setup fee and free email support.
